

Municipal elections  
matter.

Get ready for the October 27 elections for Mayor, City Councillors and School Trustees.

# Municipal elections **matter**—because the issues facing Toronto City Council impact **all of us**:

Transit that is reliable, affordable and accessible

Libraries, childcare, recreation programs and services for seniors

Programs that fight poverty—and open doors for our youth

The City as environmental leader, with green jobs, clean water and reduced waste

Policies that support racial equity and women's equality

Neighbourhoods where families thrive

**School Board elections** will also be held on October 27. Toronto needs schools that are centres of life-long learning and hubs of community life.
